

Product Number:XY-MD02

Communication protocol:Modbus RTU and ordinary protocol

Communication address:1~247(default 1)

Temperature Precision:±/-0.5°C

Work Temperature:-40°C~85°C

Work Humidity:0%~95%RH

Size:65\*46\*28.5mm

# Temperature Humidity Transmitter

1) RS485 Communication

2) ModBus protocol

3) SHT20 High precision sensor

4) 35mm standard rail

5) Low power consumption

6) Wide voltage input

1>.Support MODBUS RTU protocol

2>.RS485 supports 1000 meters communication

3>.Standard DIN35 mounting rails

4>.High precision

5>.Industrial products, high progress SHT20 temperature and humidity sensor, the RS485 communication

6>.Standard MODBUS protocol and ordinary protocol, the user can choose communication protocol

7>.Baud rate can decide for themselves

8>.General agreement with automatic upload function, upload speed can decide for themselves

## Wiring Method

RS485 communication distance can reach up to 1000 meters
